QA NOTES

Good capture (GREEN)

Public sample geometry is shifted to protect the original block location.
Precision band 10.00-15.00 m · Blur n/a · Illumination n/a

CREW ACTIONS

- zone_03: Inspect canopy continuity across the south-facing rows.
- zone_07: Check soil moisture at 6 and 12 inches.
- zone_01: Walk the missing-vine corridor on the west edge.
- zone_05: Confirm row-to-row variation is still within the routine range.
